

# STOKPLAS - DEDICATED TO QUALITY

Stokplas is a leading distributor of industrial thermoplastic pipework systems. Our excellent reputation has been earned through the supply of first class materials to industry, backed by personal service and expertise.

## Expertise in Plastics

Our staff can provide independent advice on all of our products and their applications, providing proven solutions backed with full Manufacturer's support and warranty. With the skilled project management team, customers have the assurance of meeting tight deadlines or delivery requirements, liaising with others involved in the project and receiving what they need, when they need it.

## Stokplas knowledge, stockholding and service set the standard

The range of Stokplas products for the manufacturing and process industries is not just limited to those contained in this Price Guide. Stokplas is part of the Crossling Group of Companies who are one of the UK's leading independent plumbing and pipeline merchants. This enables Stokplas to also provide your requirements for steel, brass or copper fittings, valves and ancillary pipeline equipment and tools for all trades. You can have them in the same delivery, on the same advice note and invoice. What could be simpler? You can also use your Stokplas account to purchase from any Crossling Branch or from Northern Tools & Accessories.

With instant availability from extensive stocks, we provide fast, efficient delivery. We have the belief that all our customers are of equally high importance to us, each with their own unique requirements and we endeavour to not only meet, but also exceed your expectations.

We aim to provide an excellent service to you and your company, maintaining a prompt and thoughtful attitude. We ensure a high level of technical support, with continuous staff training, so that we can help you to make the correct and cost effective buying decisions. Our service is further enhanced with the technical support of our manufacturing partners. We can provide you with help and advice throughout all stages of a project, from design to commissioning; and we can back this up with site visits. Stokplas are recognised industry specialists and are A1 distributors of George Fischer products.

## Quality Assurance

We understand the importance that many companies attach to quality. For this reason we operate a strict quality system approved to BS EN ISO 9001:2000.

## Mission Statement

Our aim is to excel as a supplier to a wide customer base made up of organisations from commercial and industrial sectors and local authorities. To be the market leaders in reliability, quality and efficiency through continued commitment to product quality, stock holding, customer service and employee development.

## Opening Hours

We're just a phone call away, telephone 01302 342121 8am to 5pm Monday to Friday or fax your enquiries to 01302 556950 or e-mail: [stokplas@crossling.co.uk](mailto:stokplas@crossling.co.uk).

## Purchasing

We have no minimum order size. If you don't have an account, please call us for an application form. We accept credit cards, including Visa and MasterCard; or corporate purchase cards, debit cards, cheques or cash. Please call 01302 342121.

## Training

Stokplas provides training for installation and jointing techniques, on-site or in-house and at our suppliers' premises.

## Distribution

We provide distribution using our own transport; we can be flexible enough to cater for all deliveries, large or small and we offer a next day carrier service for those really urgent requirements.

INDEX

INDUSTRIAL

ABS - Acrylonitrile Butadiene Styrene

Introduction	3
ABS Pipe	3
ABS Imperial Fittings	3-5
ABS Flanges	5
ABS Solvent Cement & Cleaning Fluid	5
ABS Ball Valves	6
ABS Ball Check Valves	6
ABS Butterfly Valves	6
ABS Pressure Release Valves	7

**Durapipe UK Industrial Pipework Systems**

- Durapipe abs**: Low temperature water transportation
- Durapipe pc-c**: Process chemicals & industrial fluid handling
- Durapipe corzan**: C-pvc system for hot corrosive fluids
- Vulcathene**: Safe chemical drainage
- friatherm**: Hot and cold pipework system. Quick and easy installations of hot and cold water pipework.
- friaphon**: Sound attenuated drainage. Sound attenuated drainage system with no need for lagging.

**COOL-FIT**

COOL-FIT is a complete system solution for secondary cooling and refrigeration piping systems.

The system is based on the tried and tested ABS plastic system from GF Piping Systems which contains pipe fittings valves and transition fittings, now with the option for preinsulated pipe and fittings with outer jackets in either black or white.

You can adapt the system solution to your particular needs. For example white preinsulated for food production halls or standard plastic pipe with control valves for pump houses or OEM chillers.

The system is water and vapour tight. Ideal for the transportation of chilled water, iced water, salt solutions, glycol solutions and organic salt solutions.

**Fields of Application:**

- pharmaceutical industry
- meat processing
- dairies
- brewery
- fish processing
- supermarkets
- air conditioning
- industrial cold/iced water

**Advantages:**

- no corrosion
- top efficiency = 0.026 W/m.K
- reduced costs for pipe hanging
- 25 year life span
- simple clever installation
- reliable technique
- hygienic and aesthetically pleasing
